

FORKSTER 2508M

TRANSFORM
YOUR
MINI-SKID
INTO A
MIGHTY-SKID!

What do you look for in equipment?
Versatility, Quality, Innovation. That's the
challenge we accepted in developing
the Forkster line of attachments. The

Forkster's all terrain lifting chassis
exponentially increases the stability and
capacity of your loader, whatever it's size.

Unlimited lifting and hauling applications
are presented with the unique technology
behind the Forkster framework. Small
enough to transport readily. Powerful
enough to leave the big bulky equipment
of yesteryear at home collecting dust!

Specifications

Application:	Mini Skid Steers
Lift Height:	8 feet
Lift Capacity:	2,500 lbs
Tires:	Size: 18.00 x 8.50 - 8 Rating: 8 ply rating, 44 psi Wheel: 8 x 7.5 bolt on 4.5" bolt circle
Clearance Height:	77" with forks lowered
Clearance Width:	44" outside tires in innermost position, up to 88" extended
Hydraulic Spec:	Min pressure: 1,500 psi Min flow: 6 gpm
Accessories:	Extension Boom Dump Box Pallet Box
