

Genuine Forkster Attachment

Transportation Package

The Transportation Package allows your Forkster to be towed on a standard ball hitch. It can also conveniently double as a hydraulic lift trailer.

The Transportation Kit can be purchased for both mini and full sized models.

- TK2508 - 1505 or 2508 with mini adapter
- TK3316 – 3316 with universal adapter

The Transportation Kit is intended for use on level ground in non-hazardous locations. Operators should check local laws and highway restrictions before hauling on state roads.
